Muttika Leela Naga Madhuri

Full Stack Software Engineer | Java • Spring Boot • React.js
Mumbai, India | 8247806938 | madhuri.muttika29@gmail.com | linkedin.com/in/madhuri-muttika-8392aa265

PROFESSIONAL SUMMARY

Full Stack Software Engineer in fintech payment systems. Specialized in Java, Spring Boot, and React.js. Built merchant onboarding platforms, payment simulators, and secure authentication systems used by enterprise clients. Strong in REST APIs, JWT security, database design, and delivering production-ready solutions in Agile environments. Passionate about building reliable, scalable systems that improve payment experiences.

TECHNICAL SKILLS

Languages: Java, Python, C, C++, SQL, JavaScript
Backend: Spring Boot, Spring MVC, JPA/Hibernate, Node.js, REST APIs, JUnit
Frontend: React.js, HTML5, CSS3, Bootstrap, JSP
Databases: MySQL
Security & Auth: JWT, CSRF Tokens, Refresh Tokens, Role-Based Access Control
Tools & Practices: Git, GitLab, Postman, Swagger, SonarQube, Docker, Jira, Agile/Scrum, UAT

PROFESSIONAL EXPERIENCE

Software Engineer
Sept 2025 – Present
NTT Data Payment Services
Mumbai, MH

- Delivered a configurable merchant onboarding platform enabling dynamic form creation and role-based workflows for multiple enterprise clients.
- Strengthened application security by implementing JWT, CSRF, and refresh token mechanisms across frontend and backend services.
- Built merchant dashboard supporting role-specific operations and Excel-based bulk submissions, improving onboarding efficiency.
- Developed Java and Python integration kits to enable seamless connectivity with payment systems.
- Improved code quality and reliability through JUnit testing, SonarQube analysis, Docker deployments, and active participation in UAT and production releases.

Software Engineer Intern
Jan 2025 – Aug 2025
NTT Data Payment Services
Mumbai, MH

- Built payment workflow simulators that enabled end-to-end transaction validation and encrypted payload testing for payment gateways.
- Developed custom form builders for merchant onboarding, accelerating client-specific workflow configuration.
- Contributed to payment modules and improved test coverage by writing JUnit test cases.

PROJECTS

Generic Form Builder | Java, Spring Boot, React.js, JWT, MySQL

- Built a dynamic form builder with role-based access control (Admin, Super Admin, Merchant) for creating and rendering merchant-specific forms.
- Implemented secure authentication and configurable workflows tailored for enterprise client onboarding requirements.

Downtime Portal | Java, Spring Boot, Thymeleaf

- Built a downtime portal using Spring Boot and Thymeleaf to display maintenance messages on the payment page during outages.
- Ensured clear communication of service unavailability while preserving a consistent user experience.

AIPay Simulator | React.js, Payment Gateway Integration

- Developed a payment simulator with encrypted request/response processing for end-to-end transaction workflow validation.
- Integrated with payment gateway services to simulate real-world payment scenarios for testing and QA.

IFC Simulator | React.js, Encryption, MID Configuration

- Created a payment workflow validation tool supporting MID-based request selection, environment configuration, and encrypted payload generation.
- Enabled comprehensive testing of payment flows across multiple environments.

Custom Form Builders | Node.js, React.js

- Developed custom form builders using Node.js and React.js to support flexible merchant onboarding workflows.

EDUCATION

B.Tech in Computer Science and Engineering Dec 2021 – June 2025
National Institute of Technology, Sikkim | GPA: 7.42

Tirumala Junior College, Visakhapatnam June 2019 – July 2021
Intermediate (Class 12) | 97.6%

Bhashyam High School, Visakhapatnam 2018 – 2019
Secondary School (Class 10) | Grade: 10/10

LICENSES & CERTIFICATIONS

Supervised Machine Learning: Regression and Classification
DeepLearning.AI | Issued Jun 2023
Credential ID: 33DDJT6GP9M6

ACHIEVEMENTS

- Secured a position in the Top 4% in JEE 2021.
- Participated in Smart India Hackathon (SIH).
